It presents (1) a summary of the public hearing comments received on both Bulletin No. 136 and Appendix A, Watershed Management in the Eel River Basin ; (2) statements on the action taken by the preliminary edition of Bulletin No. 136. The final edition of Appendix A was published in September 1966. Public hearing comments on the bulletins were primarily concerned with the need for flood control and project timing and did not significantly challenge the North Coastal water resources planning framework presented in Bulletin No. 136. Changes to the bulletin itself were therefore minor and are most effectively presented in a supplement such as this. Bulletin No. 136 provides a general description and summary of a seven-year reconnaissance investigation of the North Coast s water resources. It outlines the objectives, activities, and conclusions of the investigation and describes the plans which have been formulated. Appendix A is the report of a special study undertaken in response to Senate Concurrent Resolution No. 47 of the 1961 State Legislature. The report summarizes all aspects of watershed management in the Eel River Basin. Public hearings were held throughout the North Coastal area on these bulletins during February and March 1965. Transcripts of these hearings are on file with the California Water Commission in Sacramento and the Northern District of the Department of Water Resources in Red Bluff and are available for review by the public.
