Fernie, M.D. The art of Simpling is as old with us as our British hills. It aims at curing common ailments with simple remedies culled from the soil, or got from home resources near at hand. Since the days of the Anglo-Saxons such remedies have been chiefly herbal; insomuch that the word drug came originally from their verb drigan, to dry, as applied to medicinal plants. These primitive Simplers were guided in their choice of herbs partly by watching animals who sought them out for self-cure, and partly by discovering for themselves the sensible properties of the plants as revealed by their odour and taste; also by their supposed resemblance to those diseases which nature meant them to heal. John Evelyn relates in his *Acetaria* (1725) that one Signor Faquinto, physician to Queen Anne (mother to the beloved martyr, Charles the First), and formerly physician to one of the Popes, observing scurvy and dropsy to be the epidemical and dominant diseases of this nation, went himself into the hundreds of Essex, reputed the most unhealthy county of this island, and used to follow the sheep and cattle on purpose to observe what plants they chiefly fed upon; and of these Simples he composed an excellent electuary of marvellous effects against these same obnoxious infirmities. Also, in like manner, it was noticed by others that the dog, if out of condition, would seek for certain grasses of an emetic or purgative sort; sheep and cows, when ill, would devour curative plants; an animal suffering from rheumatism would remain as much as it could in the sunshine; and creatures...
